4-EVERGROUP INTRODUCTION

to our pro security & cleaning services

We hope our PDF introduction, backed by our fully optimised website, to our pro security & cleaning services encourages you to look to us for your needs and support. Whilst we have embraced the very latest digital technologies to provide information & support for our clients, we are still a 'hands on' 'face-to-face' business looking to work with like minded people. We do not use voicemail or messaging services, we are available to talk to any time on the phone. Communication is at the center of our ethos.

With over 25 years experience working within the property, event and supercar sectors, we feel we have gained an enviable reputation for reliability, results and effort.

4-EVERGROUP OVERVIEW

Welcome to the 4-Ever Group offering security and cleaning services (*"soft facilities management"*) to both commercial and domestic clients across the Southeast. You may ask why combine security with cleaning?

It takes trust to appoint a security company placing your faith in their ability to protect your investments, so why not have the same company care for your properties/events as well?

Whilst we hope this security & cleaning presentation, along with our website & socials underlines our ability to grasp modern digital technologies to help communicate with our clients, we have not forgotten the importance of the 'one-to-one' connection with our customers. This is the only way to create a successful relationship and meet with the objectives laid down by our customers.

Our gallery pages will showcase our continued work and events designed to promote our services and support to the local community.

OTHER BENEFITS 4 U

Apart from offering expert security and cleaning services (*"soft facilities management"*) to both commercial and domestic clients across the southeast, we offer huge benefits from a digital viewpoint to our event clients. As a progressive company, we always have our marketing man attend every project we engage in. His objective is to promote our work using the latest Ai SEO via our BLOG and social platforms. Using extreme HDR imaging and video, we present an unparalleled and an optimised online overview of our work. This includes online links to our clients websites, thus helping their social rankings, whilst also advertising their forthcoming and past events. We do not charge extra for this service as we all benefit from this exposure.

Longevity is everything in business being able to provide the same high level of service that you can rely on. We feel our adaptability to the latest digital trends helps support this approach.

OTHER BENEFITS 4 U

Thinking 'outside the square' is our forte and has helped promote a fast growth rate in our business. The screen grab below shows that a search for the '4 ever group' returns a total count of over 4.5 billion entries with our business retaining the top entry on the first page of Google. This underlines our correct approach to both SEO and online marketing. Other key searches are quickly advancing up the rankings as well. Our approach to security and cleaning is the same. We look to be the best! It demonstrates a strong and focused approach to our clients and their services.

CONCLUSION

People tend to procure services based on price when they cannot see any other reason to deal with someone. The other influencing factor is sector practice or, just copy everyone else!

Our objective is to inject value in what we do and why we are worth the prices we ask for. We are not expensive but equally, we cannot match the crazy cheap prices that inexperienced and valueless 'pop-up' businesses are charging.

We get to know how our clients work flow, their expectations and reputation within their sectors. We ensure that our work is beyond expectation backed by trained staff and the necessary insurance levels.

Please talk with to discuss your requirements.
